To see storage information about your Mac, click the Apple menu in the top-left of your screen.

Time Machine automatically backs up your entire Mac, including system files, applications, accounts, preferences, email messages, music, photos, movies, and documents.. Choose About This Mac and click the Storage tab For Time Machine backups, it's good to use a drive that has at least twice the storage capacity of your Mac.. But what makes Time Machine different from other backup applications is that it not only keeps a spare copy of every file, it remembers how your system looked on any given day.. "As anticipated by phone, unfortunately MyCloud gives you only one folder called "Time Machine Back Up", so, to be able to make a difference between the back up from your first Mac and the second one, the only thing you can do is to rename the folders, or the back up projects, in.
