And these are smart archives, taking only what you have not archived before Email clients and services: All major email clients are supported: Apple Mail, Eudora, Gmail, Exchange, Outlook.. I mean, if it's possible you'll need to access them again, it's good to have an archive, right? But it's not entirely necessary for you to keep them cluttering up Mail if the information is years old.. Open Mail from your Dock or Applications Folder Click Mailbox in the Menu bar Mar 14, 2020 Mail Archiver X protects one of your Mac-based small business' most important assets: your email.
